

**TOYOTA
TECHNOLOGICAL
INSTITUTE
AT CHICAGO**

TTIC is an independent, philanthropically endowed, accredited graduate research institute, founded in 2003 and dedicated to research and education in computer science.

PhD PROGRAM

Machine Learning & Optimization

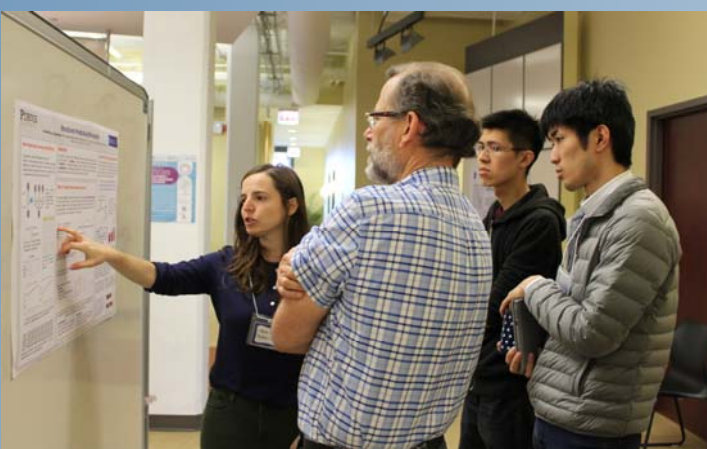

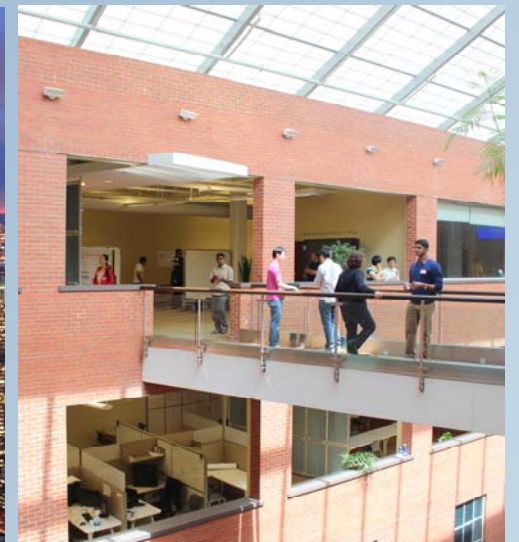

Algorithms and Complexity

Computer Vision

Speech & Language Technologies

Computational Biology

Robotics

WHY TTIC?

- Cutting-edge research by award-winning faculty and students. Recent awards include: Sloan Fellowships, IBM and Google Faculty Awards, Marr Prize, NSF and Microsoft PhD fellowships, multiple best paper awards in flagship conferences, and many others
- PhD alumni have gone on to post-docs and hold faculty positions in top-10 CS departments; others work at top tech companies like Google and Microsoft
- Small student-to-faculty ratio
- Full access to University of Chicago courses, campus, facilities & resources
- Access to state-of-the-art computational facilities
- Living in the vibrant, culturally rich city of Chicago
