Privilege & Oppression
What is one time you’ve caused harm?

What is one time you’ve been harmed?

Sli.do #12042020
Power + Prejudice = -isms
Modern Sisyphus

I realize that you never owned slaves or raped anyone. I'm talking about systematic racism and sexism, okay?

Yes, I'm qualified to be in my job... no. I don't hate white men... no. Sexism and racism didn't end thirty years ago...

If you just stopped focusing on these things, you'd be happier... I gotta go now.

Sigh...
Risk Factors

1. Narrow definitions of masculinity
2. Limited roles for women
3. Normalized violence
4. Privacy & Silence
5. Power & Control

Answer in the Chat:
How do we see these risk factors in higher education?
• Beginning in high school, older men tend to have access to better space, alcohol, parties and most importantly, social power.

• Men are socialized to prioritize their own sexual gratification.

• Men are also socialized that it is their job and only their job to pursue sex.
“Heterosexual students overwhelmingly operate within an implicit framework in which men are the ones who move the sexual ball down the field, and women are the blockers.”

“This analogy frames sex as a game people play against an opponent. It’s not playing with a partner; it’s scoring against them. The implication is that there are winners and losers.”
Stevie and AJ
CONSENT IS:

CLEAR
Consent is active.
- It's expressed through words or actions that create mutually understandable permission.
- Consent is never implied, and the absence of a no is not a yes.
- Silence is NOT consent.
- “I’m not sure,” “I don’t know,” “Maybe,” and similar phrases are NOT consent.

COHERENT
People incapacitated by drugs or alcohol cannot consent.
- Someone who cannot make rational, reasonable decisions because they lack the capacity to understand the “who, what, when, where, why, or how” of the situation cannot consent.
- People who are asleep or in another vulnerable position cannot consent.

WILLING
Consent is never given under pressure.
- Consent is not obtained through psychological or emotional manipulation.
- Consent cannot be obtained through physical violence or threat.
- Someone in an unbalanced power situation (i.e., someone under your authority) cannot consent.

ONGOING
Consent must be granted every time.
- Consent must be obtained at each step of physical intimacy. If someone consents to one sexual activity, they may or may not be willing to go further.

Part II
Prevention Tips

1. Bystander Intervention education
2. Teach and celebrate empathy
3. Confront microaggressions
4. Educate staff on their role in prevention

How are we currently utilizing these prevention methods? Where do we need improvement?
