

Ph.D. Program at TTIC

About Us:

The Toyota Technological Institute at Chicago is a unique and independent institution focused on cutting-edge research and graduate education in computer science, with 15 permanent faculty, 10 research faculty, and about 40 Ph.D. students. We are located on the campus of the University of Chicago, and have a close affiliation with the university.

Research Areas:

- Machine Learning and Optimization
- Algorithms and Complexity
- Computer Vision
- Speech Technologies
- Natural Language Processing
- Robotics
- Computational Biology

Why Choose Us:

- Work with world-leading, award winning, highly cited faculty
- Be part of an incredibly strong student body, including NSF, Google and Microsoft fellows
- Student alumni work as faculty in top schools including Cornell, UIUC, Yale, and researchers in Google, Microsoft, Facebook, OpenAI
- Small student-to-faculty ratio
- Be part of a highly active, collaborative academic environment with regular colloquium talks, workshops, and more
- Full access to University of Chicago courses, campus, facilities and resources in the culturally rich city of Chicago

Application Deadline (FREE):
December 9, 2025
